Scholarship	25%	16.875,00 TL	281,25 TL	

Summer Session Tuition

The summer session is optional for students.

Summer tuition is paid per credit for each graduate course offered during the 2016-17 summer session. Tuition per credit is 1/60th of the annual tuition fee of the student's current academic program. The tuition paid by students who attend the summer school is calculated based on the total credits of the courses they take. For recipients of tuition waivers, tuition per credit will be waived up to the rate of the tuition waiver the student has been awarded.

Installment Plan

In case of installment plans, tuition is divided by the number of installments and is paid in equal amounts.

Annual tuition is USD 9,500 for international students admitted to the MSc and PhD in Engineering, PhD in Business Administration, MSc in Architecture, and MSc and PhD in Design, Technology and Society programs.
